Webinar Series

May 19, 2020: The Division of Public Health shares its new Alaska Health Equity Index Map. This new tool incorporates data on households, income and education levels, and other measures to help public health professionals and community program planners target resources toward areas with the highest needs. Based on an emergency preparedness model developed by the CDC, the Alaska Health Equity Index provides an interactive map with data available at the census-tract level. [Register>](#)
